## Professional Experience .

### Microsoft, Copilot • Designer 2 • Nov'21 - Present

**Rationalised 3P Plugins into Copilot Agents:** Led the initiative to unify plugins and GPTs into Copilot Agents, simplifying user concepts and improving discoverability. Created a seamless experience, enhancing end-user interactions across Copilot while considering admin efficiency.

**Powerful No-Code Agent Creation:** Designing for powerful agent creation process using reusable actions catalog, allowing no-code users to build agents without needing APIs.

**3P Permissions Control in Copilot Agents:** Designed a settings page, enabling users to manage 3P permissions and authentication to ensure user control and efficiency.

**Scaling Copilot Extensibility across platforms:** Led Copilot Extensibility expansion to Teams, Bing Mobile, and Sidecar, ensuring seamless UX and scalability with minimal changes.

### Gartner • Designer • Aug'19 - Nov'21

**Design to drive engagement by 40% on Peer Insights Vendor portal:** Designed to uncover issues and strategise product improvements, enhancing user journeys and email notifications to meet our vendor and business goals.

**UGC review moderation tool:** Researched pain points and co-created a smart tool MVP to enhance user efficiency and accelerate the review publishing cycle.

## Education .

### IIT Delhi - Master of Design

Jul'17- Jun'19 | 2 years

### NIT Patna - Bachelor of Architecture

Jun'12 - May'17 | 5 years

## Skills .

### Design

UX Design  
Product Thinking  
User Research  
Visual Design  
Storytelling

### Software

Figma  
Sketch + Invision  
Adobe creative suite
